

- Reduces per-pallet freight costs by air, land or sea.
- Absorbs shock and vibration reducing product damages.
- Reduces export shipping costs and is ISPM 15 exempt.
- Generates recycling revenue along with your other Old Corrugated Containers (OCC).
- Clean and sterile corrugated material eliminates wood pallet debris and cross contamination.
- Compatible with standard pallet jacks and forklifts.

<b>Dimensions</b>	Length: 48 in (1,219 mm) Width: 40 in (1016 mm) Height: 4.36 in (111mm)
<b>Loadek Pallet Weight</b>	10 lbs (4.5 kg)
<b>Truckload Quantity (KDF)</b>	2,960 pallets (53' Trailer)
<b>Dynamic Load Rating</b>	960 lbs (435 kg)
<b>Static Load Rating</b>	2880 lbs (1306 kg)

Shrink wrap notches at all four corners.

The amount of recycled paper used to make 200 LOADEK corrugated pallets can save 17 trees, 380 gallons of oil, three cubic-yards of landfill space, 4,000 kilowatts of energy and 7,000 gallons of water. This translates into significant reductions in air pollution and energy and water usage.
